1. INTRODUCTION

These Qualification Regulations (**Regulations**) describe in detail how athletes and teams can qualify for the Milano Cortina 2026 Paralympic Winter Games in each of the six (6) sports on the Milano Cortina 2026 Paralympic Winter Games Programme (**Games Programme**). It provides to the National Paralympic Committees (**NPCs**), to National Federations (**NFs**), to sports administrators, coaches and to the athletes themselves the conditions that allow participation in the pinnacle event of the Paralympic Movement.

These Regulations present:

- an overview of the Games Programme;
- the general IPC regulations on eligibility; and
- each International Federation's (**IF**) own specific qualification criteria for its sport (in alphabetical order).

STRUCTURE OF EACH IF'S SPORT-SPECIFIC QUALIFICATION CRITERIA

Each IF's own sport-specific section in these Regulations follows a standardised format. Readers can quickly locate information or cross-reference it between sports. The standard structure of each IF's sport-specific qualification criteria is as follows:

- Events
- Athlete Quotas
- Allocation of Qualification Slots
- Maximum Quota Allocation per NPC
- Athlete Eligibility (sport-specific)
- Maximum Entries per NPC
- Qualification System (in the order of slot allocation)
- Timeline
- Confirmation Process of Allocated Slots
- Reallocation of Unused Qualification Slots
- IF Contact Information

QUALIFICATION METHODS

There are a variety of qualification methods that IFs may decide to employ, which may depend on the nature and traditions of each sport.

In many sports, the participation of the host country is guaranteed via reserved slots. However, athletes representing the host country still need to comply with all eligibility requirements in order to enter the Milano Cortina 2026 Paralympic Winter Games.

The following qualification methods based on performance may be used by IFs. Methods 1, 2 and 3 are referred to as “**direct slot allocations**” as they reward performance at one competition directly with a qualification slot.

1. Placement at World Championships
2. Placement at Regional/Zonal Championships or Regional Games
3. Placement in other IF sanctioned competitions or designated Paralympic qualifiers
4. Rank on a World or Regional Ranking List
5. Rank on a specific Paralympic Qualification Ranking List
6. Achievement of a Minimum Qualification Standard (**MQS**) with or without subsequent Quota Allocation Formula
7. Team Completion
8. Bipartite Commission Invitations

In the event of any inconsistency between IF qualification methods for the Milano Cortina 2026 Paralympic Winter Games that are published elsewhere and the IF qualification methods listed in these Regulations, these Regulations will prevail.

For questions regarding sport-specific qualification issues please contact the respective IF. Questions of a general nature can be addressed via email to the IPC Sports Department: juergen.padberg@paralympic.org. Occasional updates to these Regulations may be necessary. 3. GENERAL IPC REGULATIONS ON ELIGIBILITY

In addition to each IF's own sport-specific athlete eligibility criteria, the IPC has established a set of general eligibility criteria that apply to all participants in the Paralympic Winter Games. These general regulations are derived from the IPC Handbook. They ensure that the fundamental rights and obligations of the IPC and its membership are recognised and protected. The general IPC regulations on eligibility are as follows:

IPC MEMBERSHIP

Only NPCs in good standing with the IPC may enter duly qualified and eligible athletes in the Milano Cortina 2026 Paralympic Winter Games. NPCs are also reminded that each NF must be in good standing with the NF's respective IF, as required by that IF.

COMPLIANCE WITH IPC NATIONALITY REGULATIONS

Any athlete in the Milano Cortina 2026 Paralympic Winter Games must comply with the provisions of the IPC Nationality Regulations published in the IPC Handbook.

MINIMUM AGE REQUIREMENT

No minimum age limit for athletes competing in the Paralympic Winter Games is stipulated by the IPC on a general basis. However, NPCs must note that an age limit may be established by IFs through their own sport-specific rules and athlete eligibility criteria (including those set out in the sport-specific sections of these Regulations). While the Paralympic Winter Games welcomes the world's youth with an eligible impairment, NPCs are encouraged to send to the Paralympic Winter Games only athletes who are adequately prepared for high performance competition.

UNDERSTANDING AND AGREEING TO THE CONDITIONS OF PARTICIPATION

To be eligible for participation in the Milano Cortina 2026 Paralympic Winter Games all athletes must sign, and agree to comply with, the IPC Conditions of Participation Agreement. This agreement is part of the NPC registration process.

NPC SELECTION STANDARDS

The IPC recognises and respects the right of NPCs to establish their own national selection standards for determining the qualification of an athlete or team to compete in the Milano Cortina 2026 Paralympic Winter Games. Such standards must be compliant with those established by the IPC as well as those of each respective IF. Any national selection standards must also align with confirmation dates and administrative deadlines of the Organising Committee of the Olympic and Paralympic Winter Games (OCOG). All athletes and teams are equally subject to their respective NPC's selection standards.

COMPLIANCE WITH CLASSIFICATION RULES

Only qualified athletes who meet the relevant IF's sport-specific classification rules and have an appropriate sport class and sport class status will be eligible for entry in the Milano Cortina 2026 Paralympic Winter Games. It is the responsibility of each NPC to ensure that its athletes are appropriately classified in their respective sports prior to entry and that each athlete holds a sport class and sport class status that complies with the IF's eligibility requirements as published in these Regulations. In particular, an athlete is only eligible to be entered in an event that is open to their respective sport class under the relevant IF's rules.

4. BIPARTITE COMMISSION INVITATIONS

While the primary method of implementing the Paralympic Winter Games guiding principles (set out in the IPC Handbook) is through the standard qualification methods, the IPC and certain IFs have also sought to provide targeted qualification slot allocations through Bipartite Commission Invitations. Bipartite Commission Invitations are included in the overall athlete quotas of the relevant sports chapters as set out below.

Subject to the following, Bipartite Commission Invitations are granted by the IPC in its sole discretion following engagement with the relevant IF. To be eligible for a Bipartite Commission Invitation, in all circumstances:

- (a) an athlete must meet the general IPC regulations on eligibility above and the IF's own sport-specific eligibility criteria below; and
- (b) an athlete must meet the relevant IF's classification eligibility requirements and may only be granted a Bipartite Commission Invitation in relation to an event that is open to their respective sport class under the relevant IF's rules.

While at the sole discretion of the IPC, Bipartite Commission Invitations may typically consider the following factors:

- allowing the participation of top athletes who may not have had the opportunity to qualify through other methods due to extraordinary circumstances;
- ensuring the representation of athletes with high support needs;
- enabling greater representation by gender;
- ensuring medal events will have sufficient representation for event viability purposes; and/or
- optimising the presentation of a particular contest within its competition format and schedule.

Each Bipartite Commission Invitation is granted to an individual athlete, not to the respective NPC. All Bipartite Commission Invitation decisions are final with no opportunity for protest or appeal.

Where applicable, the timeline for submission and acceptance of Bipartite Commission Invitation applications is set out in the relevant sport's chapter of these Regulations.

5. REDISTRIBUTION OF VACANT QUALIFICATION SLOTS

Each IF confirms in writing to the NPCs the allocation of qualification slots that their teams and athletes have obtained. The NPCs then must confirm acceptance of their allocated slots by the deadline established in each IF's chapter of these Regulations. Any qualification slots not used by an NPC may be reallocated according to the method outlined in the respective IF's chapter of these Regulations.

Qualification slots that cannot be reallocated by the established deadlines or become vacant (following the reallocation deadline) may be redistributed at the sole discretion of the IPC to any sport on the programme and across gender categories. However, in all circumstances slot redistributions cannot be used to override:

- a) the general IPC regulations on eligibility above; or
- b) the IF's classification eligibility requirements, and slot redistributions may only be granted in relation to an event that is open to the athlete's respective sport class under the IF's rules.

Each slot redistribution is granted to an individual athlete, not to the respective NPC. All redistribution decisions are final with no opportunity for protest or appeal.

6. KEY DATES

The following dates and deadlines have been established by the IPC and the Milano Cortina 2026 OCOG:

BEGINNING OF QUALIFICATION PERIOD: 1 JANUARY 2024

Subject to the following, each IF will determine its own qualification period during which athletes and teams can attain results and rankings that count towards qualification for the Milano Cortina 2026 Paralympic Winter Games:

- a) No IF may establish a qualification period that begins prior to 1 January 2024, whereby direct slot allocations (as defined above) are obtained by athletes or teams for the Milano Cortina 2026 Paralympic Winter Games.
- b) Results attained before this date cannot be considered for direct qualification to the Paralympic Winter Games. Exemptions may be granted by the IPC under exceptional circumstances. However, results and rankings from the Beijing 2022 Paralympic Winter Games must not contribute to athlete qualification for the Milano Cortina 2026 Paralympic Winter Games. For wheelchair curling, results achieved in 2023 may contribute to the qualification rankings.

- c) Participation in a competition during the qualification period may depend on results achieved prior to the beginning of the respective sport's qualification period.

ACCREDITATION DEADLINE: 24 OCTOBER 2025

Each NPC must submit to the Milano Cortina 2026 OCOG complete information about every potential delegation member who may attend the Milano Cortina 2026 Paralympic Winter Games. This "Accreditation Long List" includes athletes (including, but not limited to, duly qualified, replacements, substitutes, bipartite candidates), competition assistants (such as guides), coaches, team physicians, administrators, physiotherapists, caretakers, press attachés, Paralympic attachés, Chefs de Mission, NPC Presidents, NPC Secretaries General and accompanying guests. Only athletes who are registered for accreditation by 24 October 2025 can be entered into the Milano Cortina 2026 Paralympic Winter Games by the sport entries deadline (see below).

SPORT ENTRIES DEADLINE: 20 FEBRUARY 2026

Sport entries is the official registration process for qualified athletes selected to participate in the Paralympic Winter Games. Any athlete an NPC may choose to enter must meet all applicable eligibility criteria by the time the entry is made. The athlete must also be on the "Accreditation Long List" (see previous section). The last possible day to meet the applicable eligibility criteria is 20 February 2026. Sport entries will close at 23:59h, Milano Cortina time, on 20 February 2026.

	<p>$(A / B) \times C =$ number of slots per NPC per gender</p> <p>A - NPC's total number of male/female athletes that meet the Ranking Factor allocation points requirement</p> <p>B - Total number of male/female athletes from all NPCs that meet the Ranking Factor allocation points requirement</p> <p>C - Total number of available slots from Ranking Factor allocation per gender</p> <p>Each NPC's allocation will be rounded down to the nearest whole number (up to the maximum quota) or rounded up to one (1) if the factor allocation result is lower than one (1).</p> <p>Any slots that cannot be allocated through this method may be allocated through the Compensation allocation method (see below).</p>	
<p>Compensation Allocation</p>	<p>In case the total number of male and/or female athletes with the required points score on 5 May 2025 exceeded the number of slots available per gender, and a factor allocation was established, any NPC whose calculation result in the World Ranking Factor allocation above showed a decimal between .51 and .99 and whose allocation was rounded down receives one qualification slot of the respective gender.</p> <p>In case fewer slots per gender are available under this method than eligible NPCs, slots under this method may be allocated according to the following priorities:</p> <ol style="list-style-type: none"> 1. Beginning with NPCs with the fewest athletes per gender after World Ranking Factor allocation and progressing towards NPCs with the most athletes after Ranking Factor Allocation. 2. 	<p>This Compensation allocation method will be applied until all available slots have been allocated or until all NPCs with a factor decimal of .51 or higher have received their respective slots.</p> <p>Any slots that cannot be allocated through this method may be allocated through the Representation allocation method (see below).</p>	
Representation Allocation	<p>Should an NPC not have obtained a minimum of one (1) qualification slot in each gender via the aforementioned methods, it may earn up to one (1) male and one (1) female slot if the NPC has athlete(s) of that gender which have achieved a valid result in at least one FIS sanctioned race of the 2024/2025 season.</p> <p>The number of slots allocated via this method will be determined by the number of remaining slots available per gender following the conclusion of the Ranking Factor and Compensation allocation methods (above).</p> <p>Should the number of eligible NPCs per gender via this method exceed the number of available slots, the highest ranked athletes per gender from each of these eligible NPCs will obtain one slot for their NPC until all available slots under this method have been allocated.</p> <p>Any slots that cannot be allocated through this method may be allocated through the Bipartite Commission Invitation allocation method (see below).</p>	tbd
Bipartite Commission Invitation Allocation	<p>Ten (10) male athletes and ten (10) female athletes will be considered by FIS and the IPC for Bipartite Commission Invitation slots.
