Competition Format and Rules

Formato e regras da competição

As of WED 31 AUG 2016

Paralympic competition format

The archery competition at the Rio 2016 Paralympic Games will begin with the ranking rounds, which will determine the seedings for all men's, women's and mixed team events. All medal events will be played in a single-elimination format, with individual athletes and teams competing in a series of head-to-head matches. The losers of the semifinals in each event will compete in play-off matches to determine the bronze medal winners and the semifinal winners will compete for the gold medal.

Individual Events

Recurve archers shoot from 70 metres at a target with a diameter of 1.22m, while in compound events, the target is positioned 50m from the archer and has a diameter of 80cm. In both categories, the archer must shoot 12 arrows at a target, with 40 seconds allowed for each shoot.

Scores on the target range from 10 for a bull's eye to one for the outer ring. Competitors with the best scores after 72 arrows proceed to the next stage.

A match-play table is prepared for elimination rounds based on rankings following qualification rounds. The individual competitions consist of elimination rounds (1/32, 1/16, 1/8) and final rounds (quarterfinals, semifinals and finals).

Recurve individual matches will be decided using the set system. Athletes receive two set points for winning each set of three arrows. If both athletes score the same in a three-arrow set, they both receive one set point. The first athlete to reach six set points wins the match.

Compound matches are decided on cumulative score. Matches last for 15 arrows, split into five ends of three arrows. Athletes shoot alternately and have 20 seconds to shoot each arrow. The athlete with the highest score after 15 arrows will win the match.

If the match is tied after 15 arrows, there will be a single arrow shoot-off, and the athlete whose arrow is closest to the centre will win the match. Winning athletes progress to the next round until only the gold medallist remains. The losing semifinalists will compete for the bronze medal.

Mixed Team Events

Individual athletes' ranking round scores are combined to determine the rankings for the mixed team events. The points total of the highest male and female scoring athlete of the same NPC and competing in the same category are added together to achieve a mixed team ranking round score.

The team with the highest combined score will be awarded the number one seeding and the second highest team combined score will be awarded the number two seeding and so on, until all teams have been ranked. Mixed teams will then be placed into a head-to-head elimination bracket according to their seed from the ranking round.

The elimination phase of the competition starts at the 1/8 (16 teams) or 1/4 (eight teams) round, depending upon the number of teams. The highest ranked teams will be awarded a first-round bye should there not be enough teams to make a full bracket.

Recurve mixed team matches will be decided using the set system. Matches are the best of four sets, each set consisting of four arrows, two per athlete. Mixed teams shoot alternately in series of two arrows, one each, and have 80 seconds to shoot all their arrows. The mixed team with the highest score each set is awarded two set points. If the scores are tied at the end of a set, each mixed team receives one point. The first mixed team to reach five set points wins the match.

If the match is tied at 4-4 after the fifth set, there will be a shoot-off, in which each team shoots two arrows, one per athlete. The mixed team with the highest score wins the match. If still tied, the mixed team whose arrow is closest to the centre will win the match, 5-4. If the mixed teams' first arrows are judged to be the same distance from the centre, the second arrows will be compared. Winning mixed teams progress to the next round until only the gold medallist remains. The losing semifinalists will compete for the bronze medal.

Compound team and mixed team matches are decided on cumulative scoring. Teams shoot 24 arrows in four ends of six arrows, the team with the highest 24-arrow total wins the match. Mixed teams shoot 16 arrows in four ends of four arrows. The mixed team with the highest 16-arrow total wins the match.

If a recurve or mixed team match is tied on four set points or a compound match is tied on cumulative score then the match is decided in a shoot-off. Each athlete in the team or mixed team shoots one arrow. The team with the arrow that lands closest to the centre wins the match.

If no winner can be decided with each team's arrow that is closest to the centre, then the second closest arrows are decided, then the third. If no winner can be decided, the process is repeated until a winner is found.

Sport rules and procedures

The archery competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- World Archery constitution and rules (edition published in 1 April 2016; available at <http://worldarchery.org/Rules>)
- The International Paralympic Committee (IPC) handbook (available at <https://www.paralympic.org/the-ipc/handbook>)

World Archery, working with Rio 2016 archery competition management, will be responsible for the technical control and direction of the archery competition at the Rio 2016 Paralympic Games.
